## Relations of Koninklijke Saan Saan HVT B.V.

**date** : 17 maart 2026  
**subject** : **Fuel surcharge 2026**

**telephone** : +31 (0)20 – 660 60 60  
**email** : info@saan.nl

Dear valued relation,

Due to the ongoing global unrest and its impact on fuel prices, Saan has no choice but to apply a fuel surcharge for all assignments we carry out for you. The diesel price is on average € 0,40 per liter higher than before March 1, 2026.

This fuel surcharge will appear as a separate item on the invoice starting from March 23, 2026.

### Calculation of the fuel surcharge

Our starting point is the average price increase of € 0,40 per liter. We will charge a fixed surcharge per round trip based on two groups of vehicles and three different zones around the Saan locations:

<b>Distance from Saan location:</b>	<b>Mobile telecranes and towercranes</b>	<b>Other diesel vehicles</b>
0 – 25 km	€ 10,00 per round trip	€ 3,00 round trip
25 –50 km	€ 20,00 per round trip	€ 6,00 round trip
50-100 km	€ 40,00 per round trip	€ 10,00 round trip
> 100 km	Customized rate	Customized rate

The above prices are exclusive of VAT.

We assume that the fuel surcharge will be a temporary measure and will end when fuel prices fall below the level of before March 1, 2026, or when the government introduces a compensation scheme for businesses. If fuel prices continue to rise significantly and we are compelled to increase the fuel surcharge, we will inform you in a timely manner.

We trust in your understanding and assume that this information sufficiently informs you.

Yours sincerely,  
**Koninklijke Saan BV**

Rutger Alferink  
Managing Director
